JOHN ALEXANDER ANDERSON

John Alexander Anderson was born in Heber, Utah, on May 14, 1886. The sixth child of a family of ten to Ludvig and Elizabeth Aird Anderson.

I began school in the Heber Central School in 1892 with Violet Aird as my first teacher. Being a natural left hander, she taught me to write with my right hand. I continued in school and lived with Uncle

Uncle Henry Aird who was harvesting hay. Salary was \$8

per month with Henry F. Watson. He was \$15 per month for winter, clothes and amount of spending money. He lived in the old house on East Street just

In 1901 the Watsons moved to the farm beyond Charleston and I also went there to live. Attended school there, riding a horse two miles each morning. Finished the eighth grade on May 7, 1903. Worked on the farm during the summers for \$40 and board.

In the fall of 1903 I enrolled at the Brigham Young University; living again with Dr. Aird, doing chores for my board and lodging. His office on the second floor of the old Wood-Clifton dry goods store was my bedroom. During the three years I attended the BYU I did many odd jobs for my board; living with the Watsons during the summer and working on the farm at the same \$40 per month salary.

I discontinued school in March 1906, on account of illness, from which I was not supposed to recover. I remained in bed for three months at father's home living on a diet of buttermilk.

In June 1906, feeling better, I went to work in Park City at the Daly West Mine, but after two weeks found I was not strong enough to work. I then lived with Corey Hanks at his little camp stop and store in Daniel Canyon until the end of August. During August and September I hauled lumber from the Wasatch Lumber Company's

mills in Strawberry Valley. Mr. George A. Wootton, the company manager, discovered that I could measure lumber very easily and he hired me to attend the yard at the mill in Strawberry. I worked there until the end of the year 1906.

On January 2, 1907, I was employed by A. Hatch and Company as a bookkeeper and clerk at a salary of \$50 per month.

Was married to Mary Alice Bagley on June 3, 1907. Wedding ceremony was performed by Bishop Robert Duke at my father's home. Reception and dinner was held on father's lawn with about 75 invited guests present.

To us were born eight children: Ivan Leroy, Thelma, Joseph Dean, Pearl, Nelda, LaVon, Maurine, and John Ellwood. Dean died in 1915 and John Ellwood died at birth in 1923.

After marriage we spent two days on a honeymoon with Fred and Jennie Parker, Mary's sister, at Park City.

Our first home was a rented house on 2nd North and 2nd West, owned by Milton H. Murdock.

On August 10, 1907, I resigned from A. Hatch and Company and we moved to the Ontario Drain Tunnel where I accepted employment at \$5 per day.

In October of the same year, my father, mother, and Mr. William L. Turner came to the tunnel in Mr. Turner's surrey and black team and induced me to return to the Hatch store at a salary of \$75 per month. We decided to return and rented part of the home of N.W. Murdock on 3rd West and Center Street. In 1909 we purchased the home from Mr. Murdock and lived there until 1914 when we sold the home to John W. Daybell and purchased the home on First South and First East Street from George M. Jorgensen.

In the spring of 1911 I resigned again from the Hatch store to work for the William M. Roylance Produce Co. as a bookkeeper. After two months there, Mr. Turner again came to me and asked me to return again to the store at a salary of \$90 per month. I returned and remained with them until they discontinued business in 1916.

In the summer of 1915, A. Hatch and Company, wishing to discontinue business, allowed me time off to organize a new company to purchase their business. They paid my salary and offered me \$500 interest in the new business if I could organize a new

Anderson International Harvester & Implement Company

company. I spent several months soliciting purchasers of stock, using a horse as my transportation. My efforts brought results and in April 1916 a corporation was given a charter in the name of Heber City Exchange Company. I was employed as its manager and continued as such until August 1936. My salary began at \$100 per month and the most I ever was paid during my 20 years as manager was \$150 per month.

My brother William, who was operating a restaurant and billiard hall at 151 North Main Street in Heber, passed away in June 1936. In the settlement of his estate I purchased his property and commenced in business for myself on August 1, 1936. The restaurant, operating at a loss, was closed in 1937 and a hardware store was opened in a small way. I took M. D. Close in as a partner to get started, transferring half the business to him for \$4,000. Two years later I bought his interest in the business for \$7,000.

I also purchased the coal business from Heber City Exchange Company in 1938 and entered the implement business the same year. In 1940 I leased ground from my son Ivan on South Main and built a machinery warehouse. In 1941 I installed a feed mill at the same place and moved my coal yard from the depot to the same location on South Main.

In 1943, my son Ivan purchased half interest in my business and we operated as a partnership until 1947 when we incorporated the business. During that time we built a new implement store and feed mill which, in connection with the hardware store, are operating at the present time.

In 1955, my feeling was that Ivan could do better by operating his timber business as sole owner. I purchased his interest in the corporation on June 30, and he continued in the timber and lumber business.

I continued operation of the Billiard Hall from 1936, as part of my business, then upon lease arrangement with others until 1955. I then had the Billiard Hall discontinued, removed the partition between that and the hardware store and opened the entire building to an up-to-date hardware store which is operating and doing a good business. Our formal opening was on November 1, 1955.

In reference to my other activities other

than operating my business, I note the following:

RELIGION

John Anderson...He Works to 'Live'

For John A. Anderson, president of Anderson Hardware and Furniture Co., Heber, the act of working involves more than making a living.

IT INVOLVES LIFE itself.

"I'm going to work until I die," he says emphatically. "Why, I know about 20 men who quit; they didn't last a year."

Grinning: "I expect to be running that store 20 years from now."

Mr. Anderson is 77.

AND THERE IS reason to believe he'll still be running the business at 97.

A beaming and hale man, his last trip to the hospital was in 1918 when he had appendicitis. His only visits to the doctor's have been necessitated by insurance requirements.

He was born in 1886, the sixth of 10 children of Ludvig and Elizabeth Aird Anderson.

THE ANDERSON FAMILY was large in numbers, but short in money. And as was the practice in those days, some of the children lived with other families.

When he was 14 he was taken into the home of Dr. John W. Aird. He tended the doctor's horse, shoveled the snow, chopped wood, harvested hay, milked the cows and tended the garden. The salary: \$8 a month and board.

H. F. WATSON, A FARMER, raised his wages to \$15 a month with board. In the winter he was given clothes. By the time he was in the 9th grade, he could command a \$40 a month salary with board.

At Brigham Young University, Mr. Anderson took the so-called commercial course, and found himself adept at arithmetic and shorthand. A strange illness—"The doctors had a name for it—" overtook him, however, and some feared for John's life.

EXHAUSTED, HE LAY IN his father's home in Heber for three months, nourished only by a diet of buttermilk.

For a year he did odd jobs around the Heber area, then joined A. Hatch & Co., a general merchandise store, as a \$50-a-month bookkeeper and clerk in 1907.

By Heber standards, \$50-a-month was a tidy sum for a 21-year-old clerk, and Mr. Anderson's thoughts turned to marriage. She was Mary Alice Bagley.

THEY WENT ON BUGGY rides together and tramped the hills looking for squirrels. They were married that year.

In August he went to work in the Ontario Mine Drain tunnel for \$5 a shift. But in short order, his former employer had begged him to return and raised his salary to \$75 a month.

In 1911 he was lured away by a higher salary offer. Two months later his old boss hired him back and raised his salary to \$90.

IN 1915 A. HATCH CO., asked Mr. Anderson to sell the business, offering him \$500 in stock to organize a new company to buy the store. Travelling by horseback, Mr. Anderson rounded up buyers, and was elected manager of the new company.

In 1936 he bought a restaurant and billiard hall owned by his late brother. A year later, he

closed the restaurant and converted the space to a hardware store. Farm implement and appliance manufacturers quickly signed him on as a dealer. In 1955, he pushed out a wall and used the billiard hall for the hardware business. In the same year, he bought out his son Ivan's interest in a feed mill and warehouse.

THE STATUS TODAY: Mr. Anderson's assets are a healthy \$190,000 against a mere \$5,000 in liabilities, and the business has a \$150,000 yearly volume.

Mr. Anderson enjoys reading and "stuff," a cent-a-point card game played with a 38-card deck. He fishes once weekly and enjoys an occasional trip to Elko or Las Vegas. He reads extensively from newspapers and periodicals.

He has long been active in community affairs and the work of the Church of Jesus Christ of Latter-day Saints. He is a past president of the Utah Council of Retailers and is now director and vice president of the Utah Retail Merchants Assn.

SON AND DAUGHTERS include Ivan, who runs a saw mill in Heber; Mrs. Burt (Thelma) McKnight; Mrs. Pearl Johnson, Mrs. Reginald (Lavon) Tadd, Mrs. Raymond (Nelda) Wright, all of Heber, and Mrs. Raymond (Maurine) Keary, Portland, Ore.

Mr. and Mrs. Anderson have 17 grandchildren and 36 great-grandchildren.
